Marshall High School,

Proudly Presents . . . The
1956
DIAL**

Education is a process of fitting together certain logical facts. It is like a geometric process.

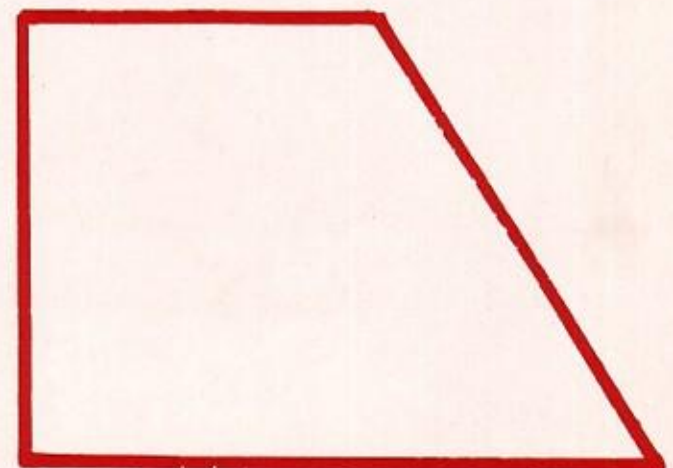

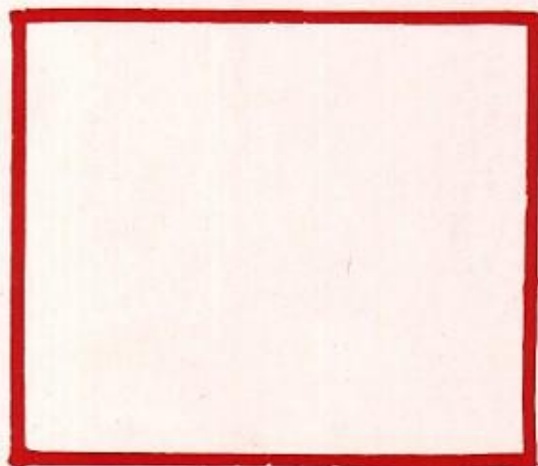

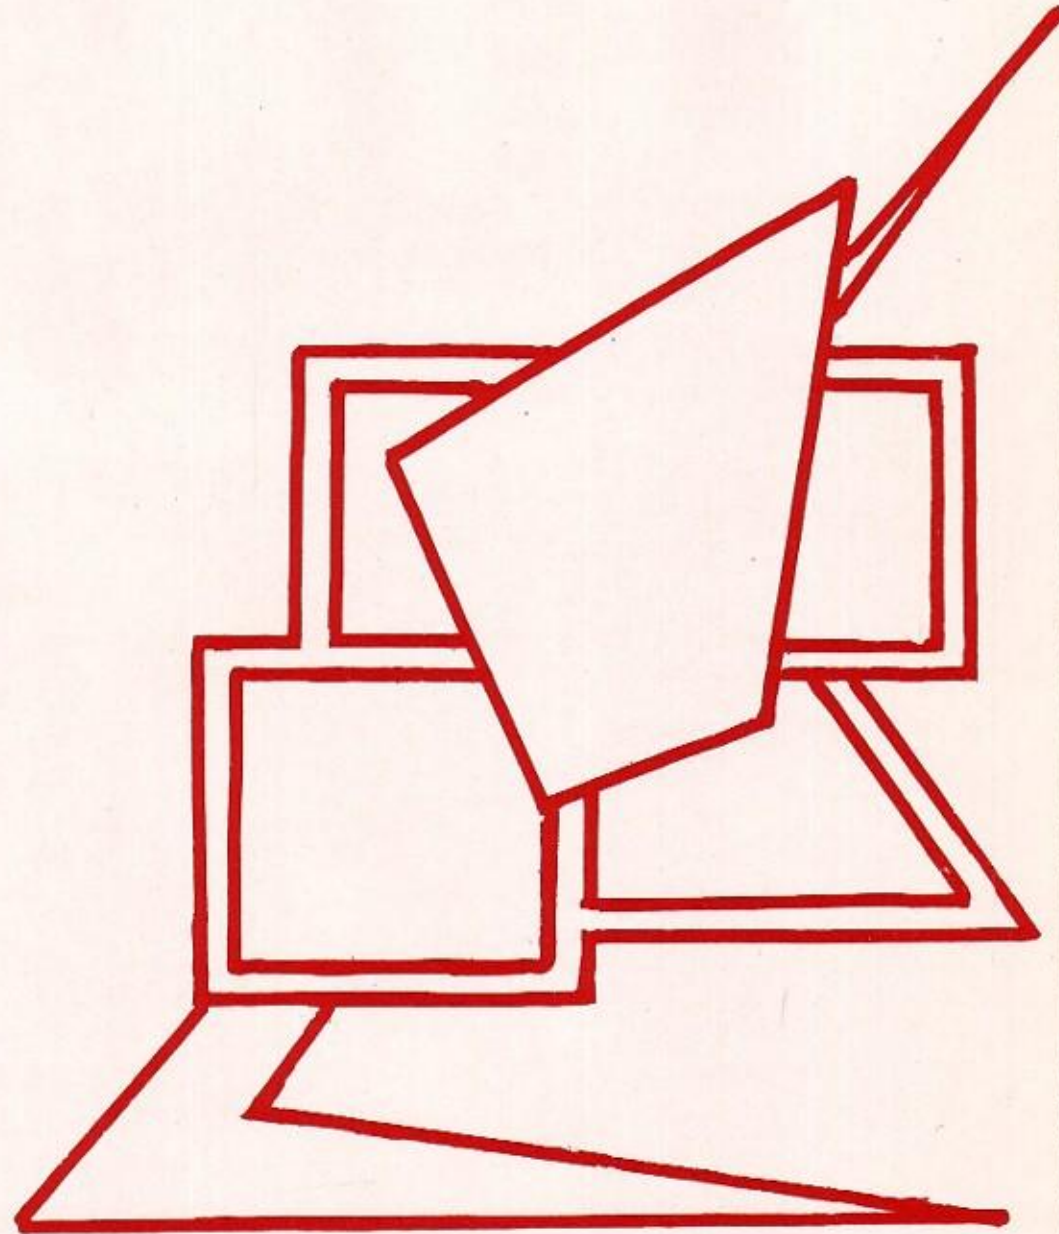

In your 1956 Dial we have tried to present the component parts of our school in terms of geometric theorems. The parts make up the whole . . . a great school — our school!

In Appreciation....

Miss Diehl and Miss Humphrey have done much during their many years of teaching to develop the minds as well as the characters of hundreds of students.

Miss Diehl taught for two years at Raesley School in Marengo Township and Miss Humphrey taught at Harrison for two years before they came to Marshall. This spring they will be retiring. We wish to show our appreciation and gratitude to these two fine ladies who have dedicated their lives to our education and betterment.

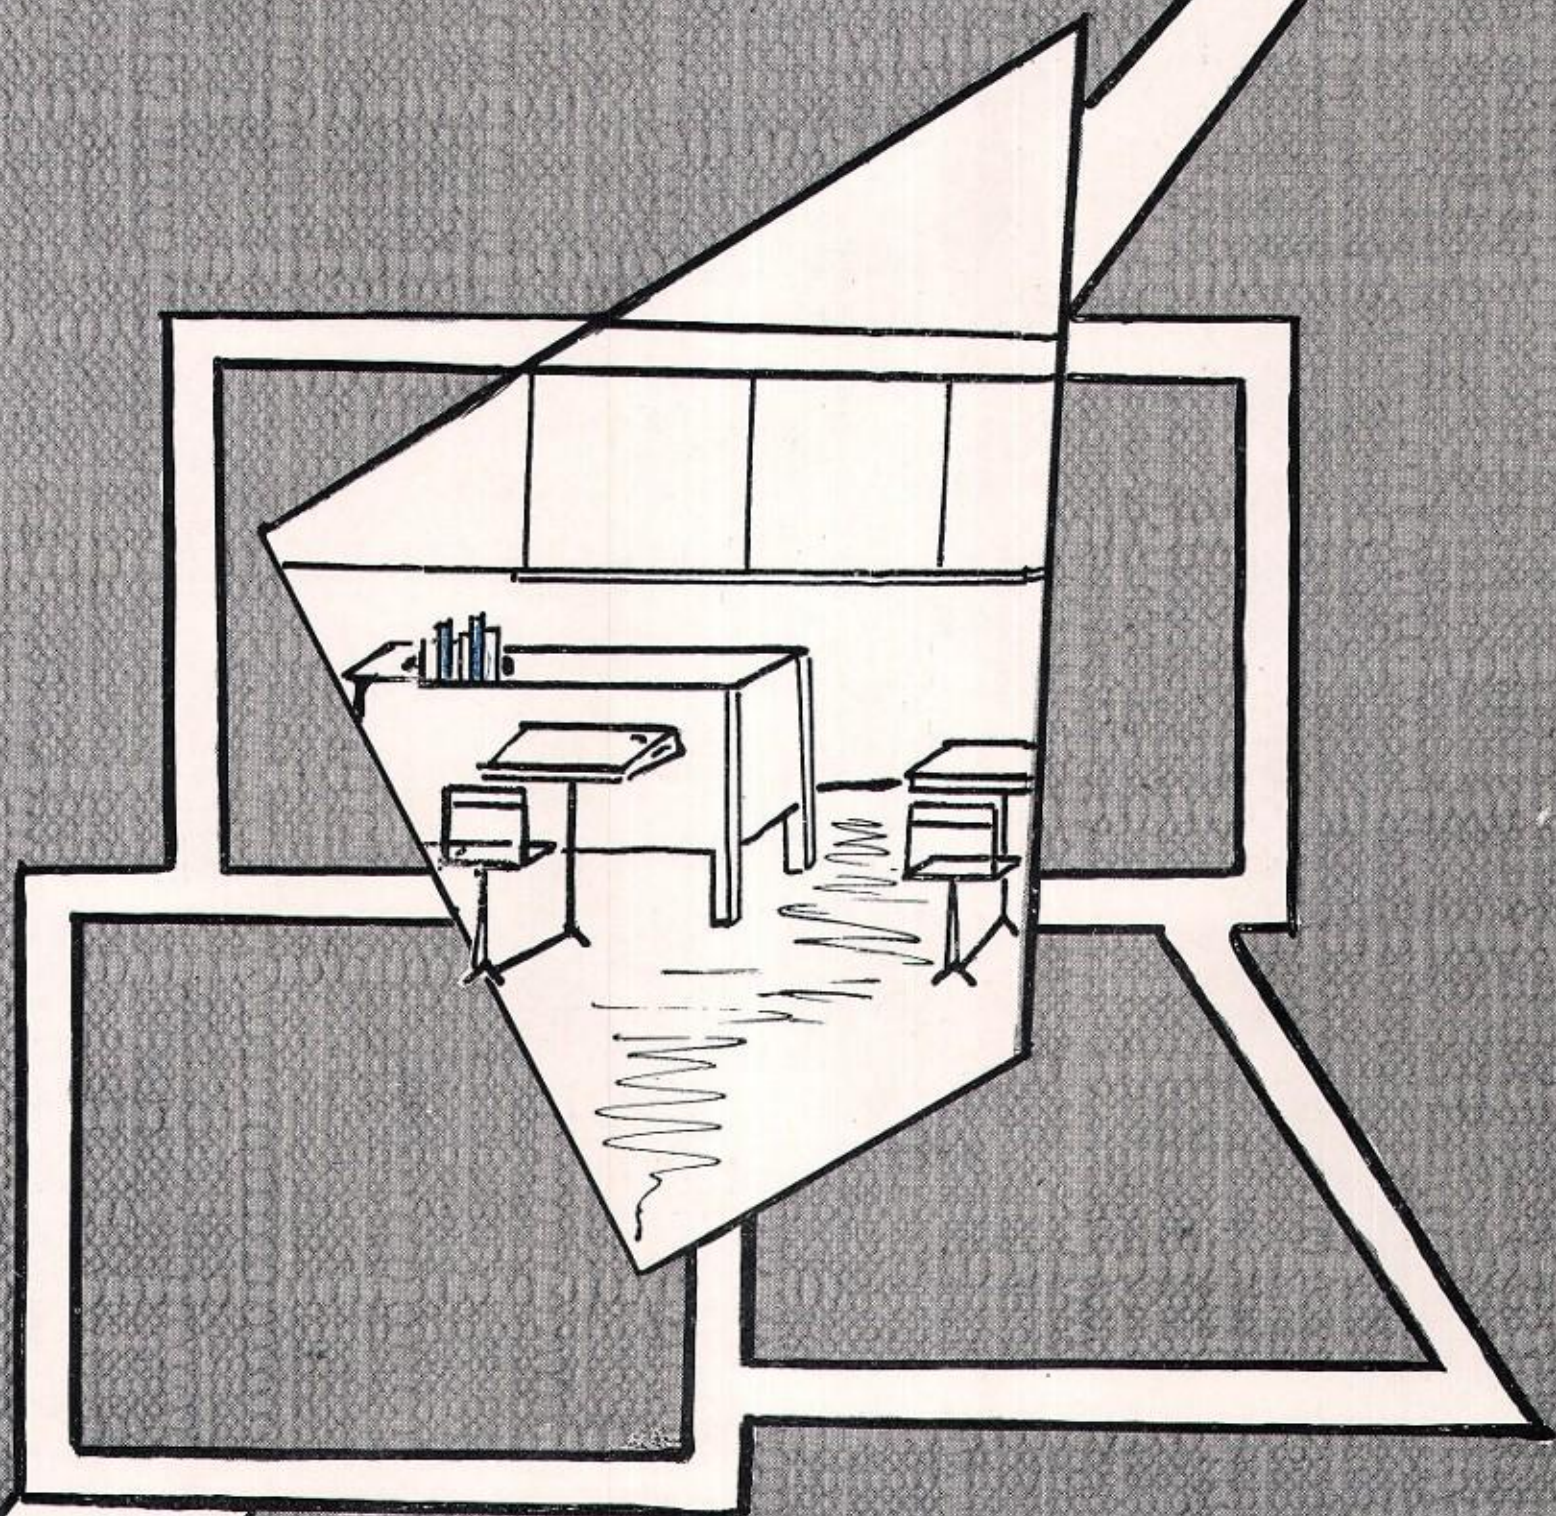

The annual staff wishes to pay tribute to the people of Marshall who helped make our new vocational building possible. Their contributions of money and machinery helped us to have one of the best equipped vocational programs in the State of Michigan.

for Consistent Improvement

Journalism teaches the student the importance of promptness and responsibility. All the students are Seniors who are chosen in the spring preceeding the school year.

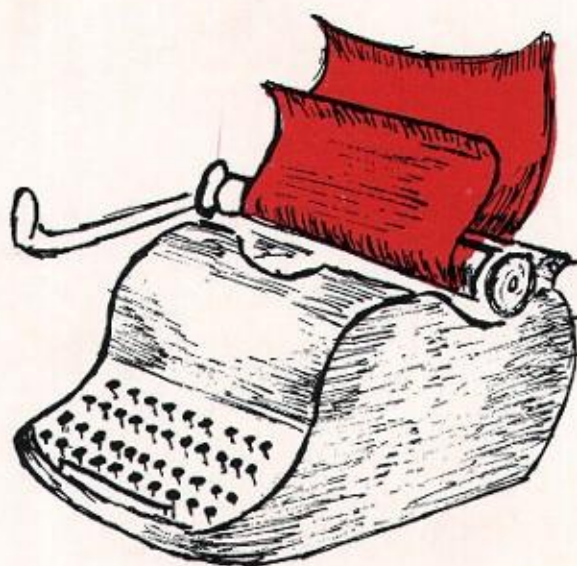

Joe Jenney, Associate Editor, Jim Lauer, Art Editor, Ann Hitchens, Editor and Dan Youngdahl, Business Manager, were this years annual staff.

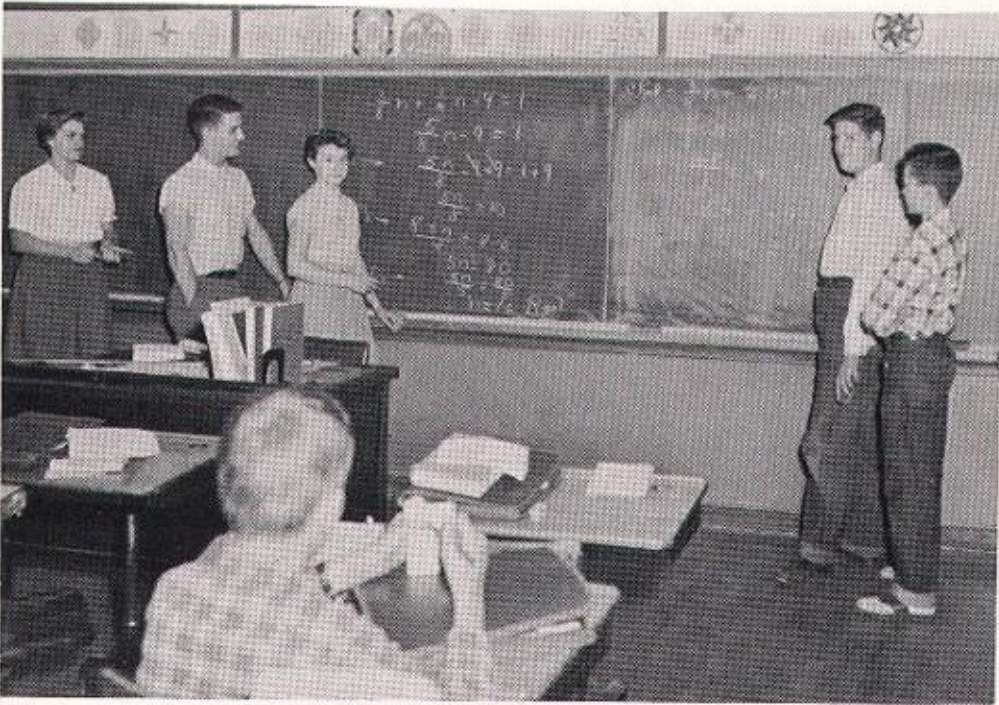

Sue Terwilliger, Jack Townsend, and John Vanden Heede do the all important job of proof-reading.

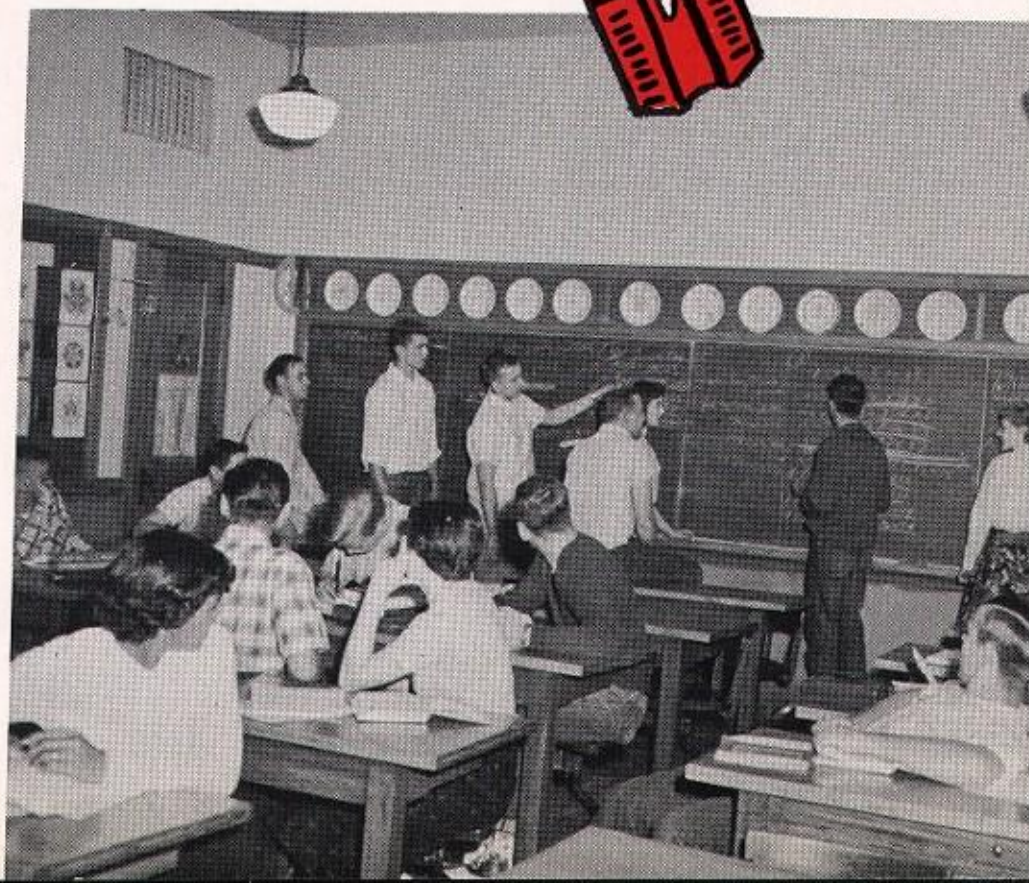

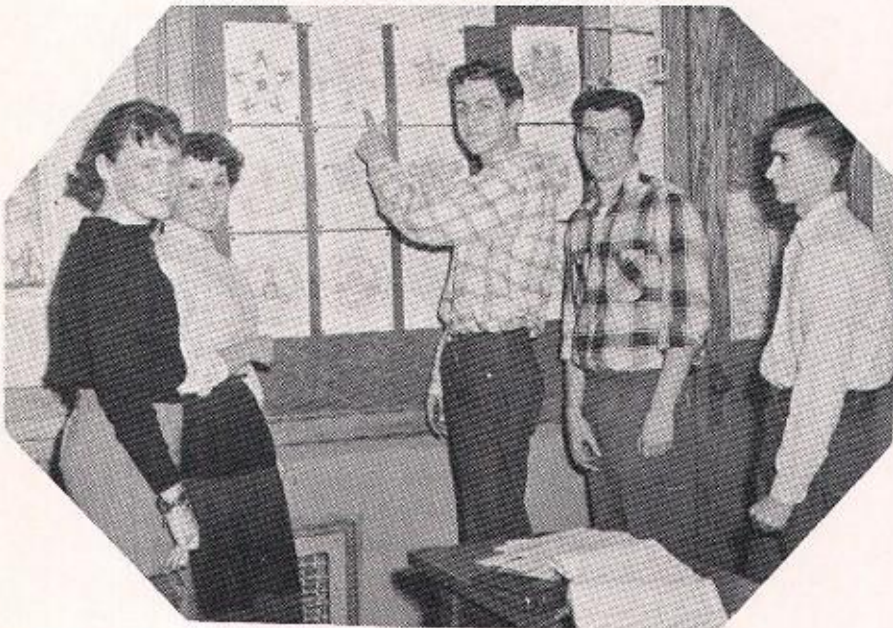

Anna Ray, Peg Lambka, and Phyllis Winsor are busy cutting and pasting.

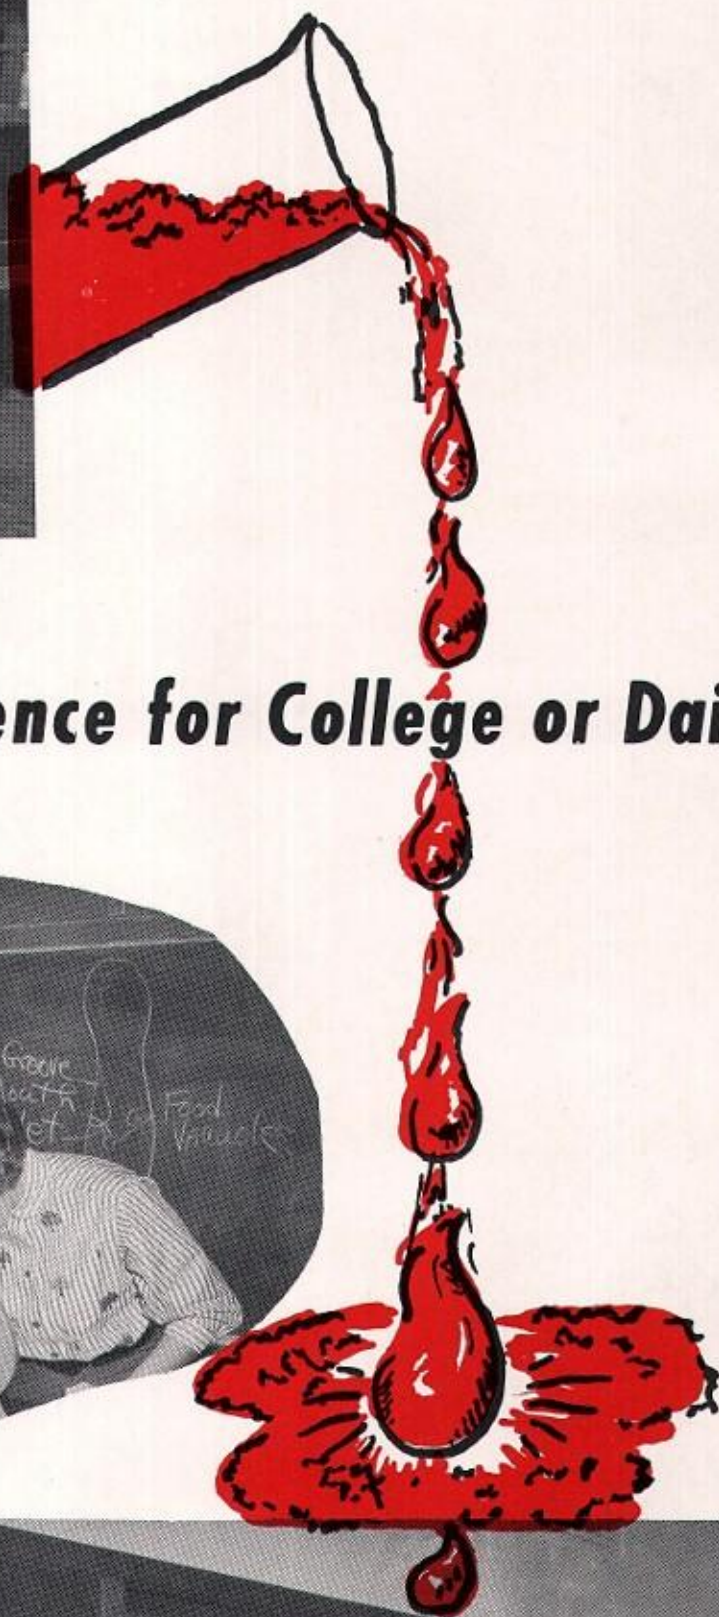

Mathematics is essential in our modern world. Without Mathematics it would be impossible to build such a society as we live in. We use it without realizing it every day in almost everything we do. It sharpens our reasoning and improves our understanding of the world we live in.

Without Mathematics Our Education Is Incomplete

Physics at Marshall High School gives the students a sound background, for future study. It is also practical for those who don't intend to go on to college.

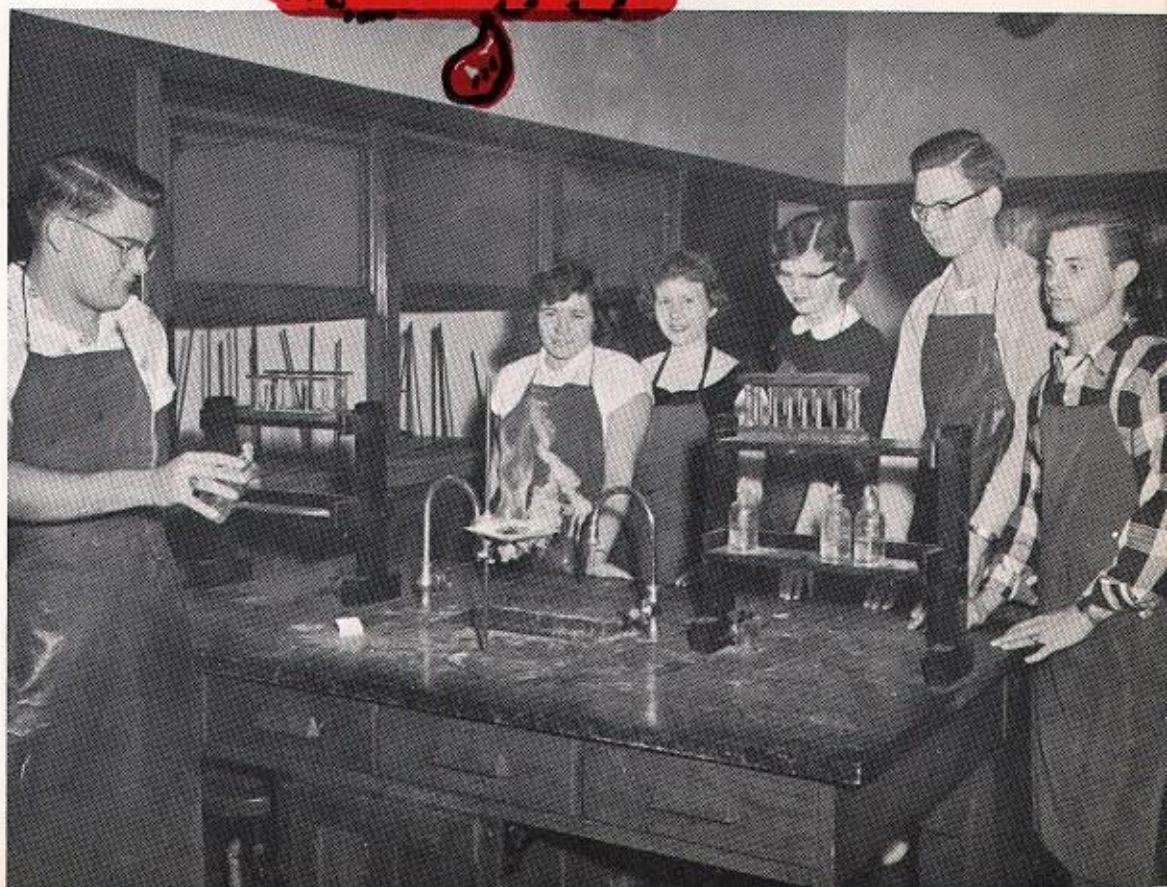

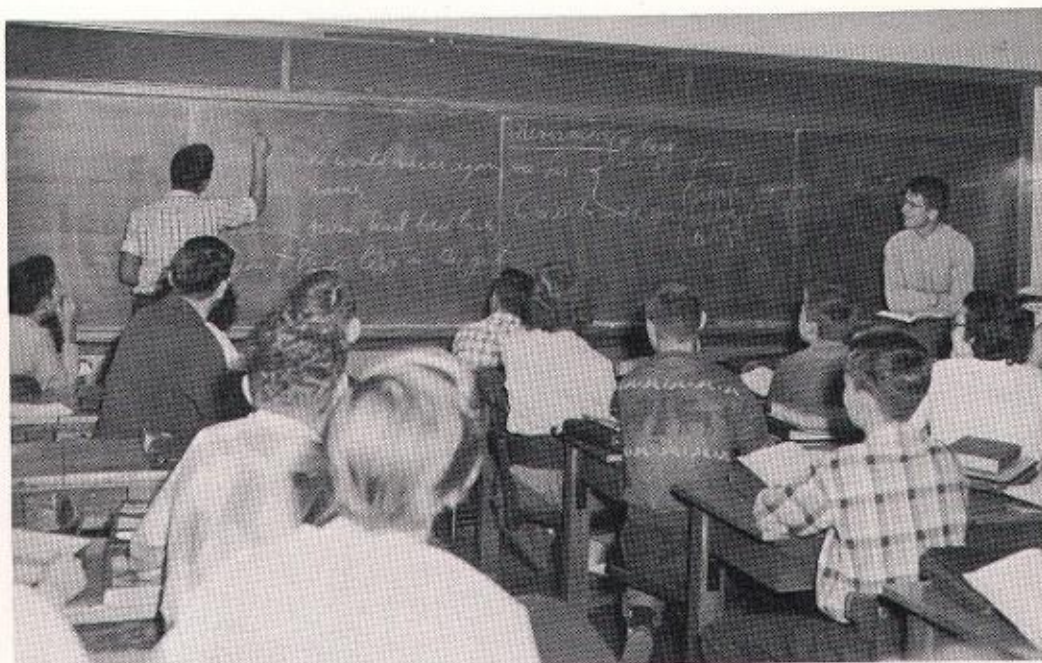

Science for College or Daily Life

Biology is the study of all living things. The student begins by studying the simplest forms of life and works up to the most complex, man.

Chemistry gives the student practical work in laboratory and theory needed for college. It teaches the student many things which help him to understand the scientific world of today.

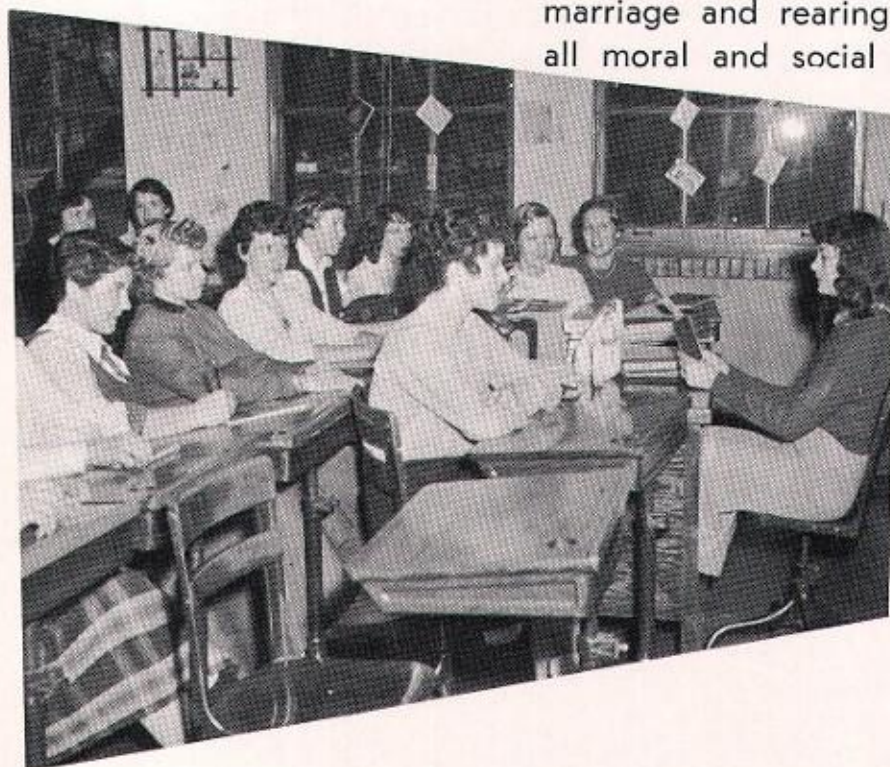

English classes are for the purpose of teaching the students to read, write, speak and listen. All of these skills are necessary to be successful, whether it be daily living or college.

You Can Express Yourself -- But Can You Do It Well?

Effective Living Is Geared For Years Ahead

Basic Living takes the Senior boys and girls at their own maturity level and guides them in the fundamentals of dating, manners and their relationship with their parents. Probably the major objective is preparation for a successful marriage and rearing of children, this includes all moral and social aspects.

Latin and Spanish are the language courses offered at Marshall. To study either of these languages is to increase the knowledge of our own.

As for Latin, many people believe it to be useless because it is not spoken. This is not true for Latin is the basis for several languages and much of our English is derived from it. Ancient Roman History is also studied as part of the course.

Latin is Alive -Ask Those Who Take It

Spanish -- A Language of Romance and Beauty

Spanish is a beautiful tongue, being valuable to us because our neighbors to the South are mainly Spanish speaking peoples. Along with the study of verbs and general form of the language a student learns the customs and views of the Mexican and Spanish peoples.

Debate is a discussion. It is a means to create logical and effective thinking in an interesting and formal manner.

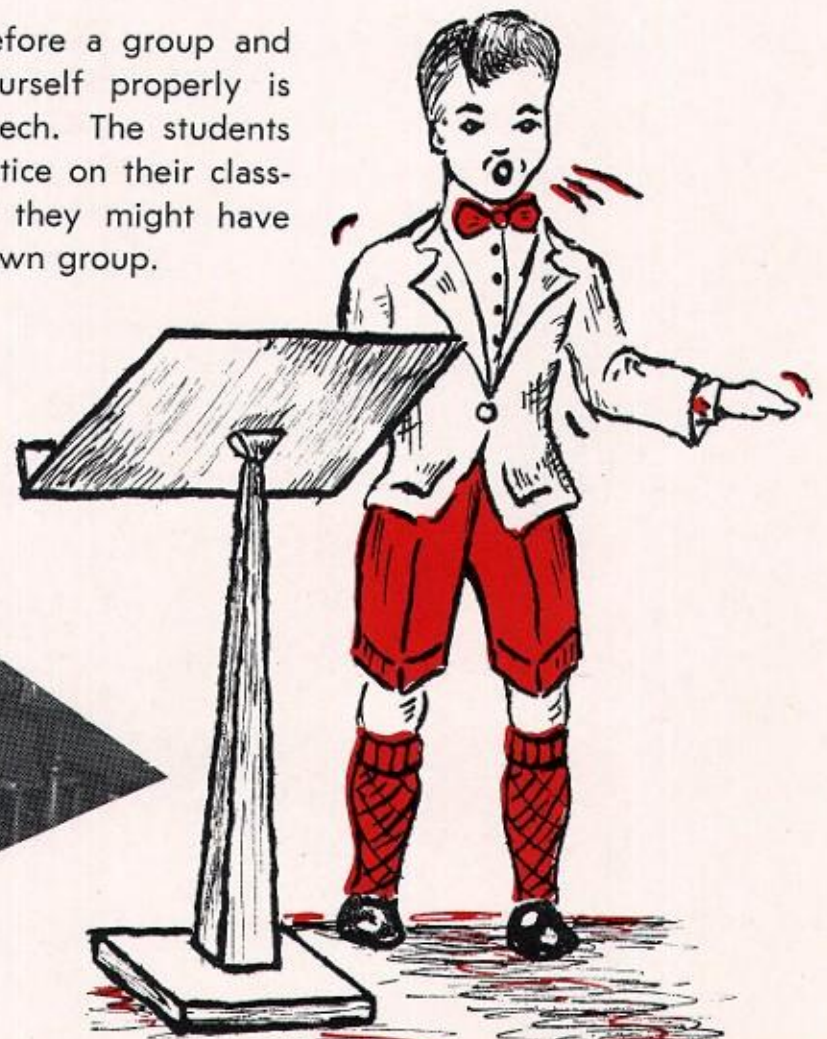

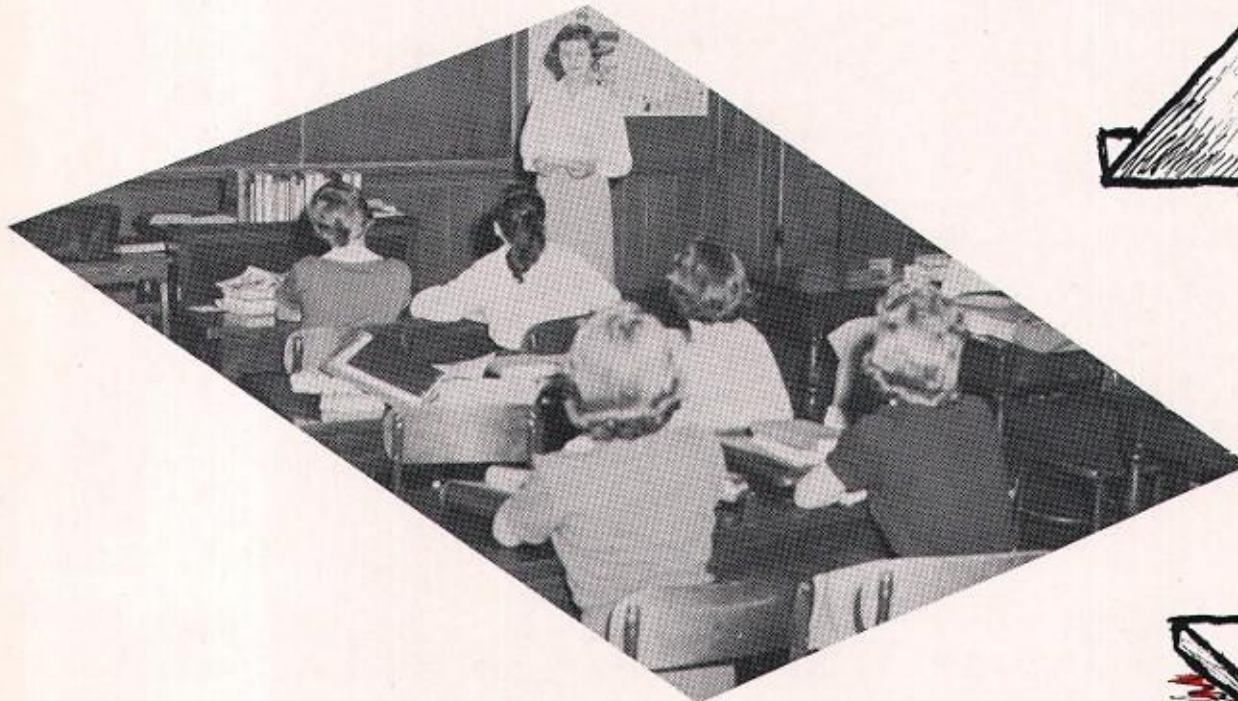

This years debate question is on the topic of whether the federal government should guarantee a college education to qualified high school graduates. Although few students get to debate, the fun is shared by all.

Logical Thinking and Effective Speaking Taught in Debate

Speech Improves Confidence of Students

Being at ease before a group and trying to express yourself properly is what is taught in speech. The students have a chance to practice on their classmates what someday they might have to do before an unknown group.

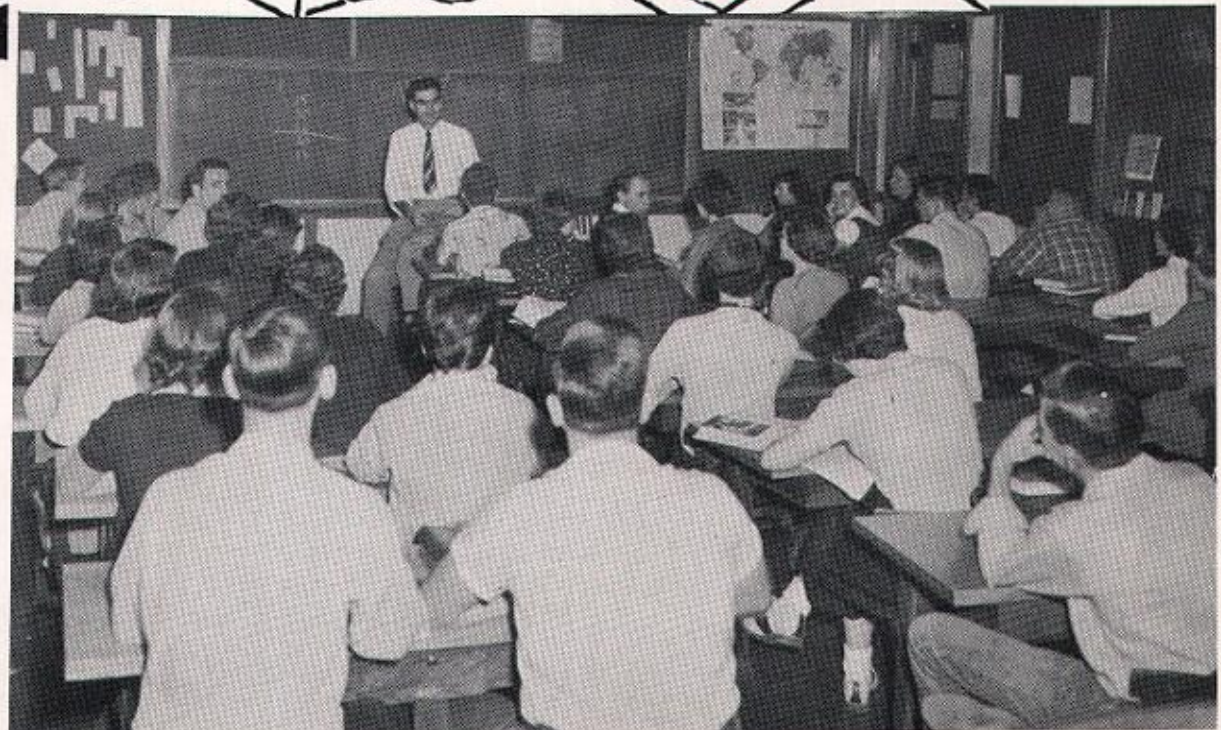

Every student owes it to himself to learn as much as possible about History. History broadens our scope of understanding.

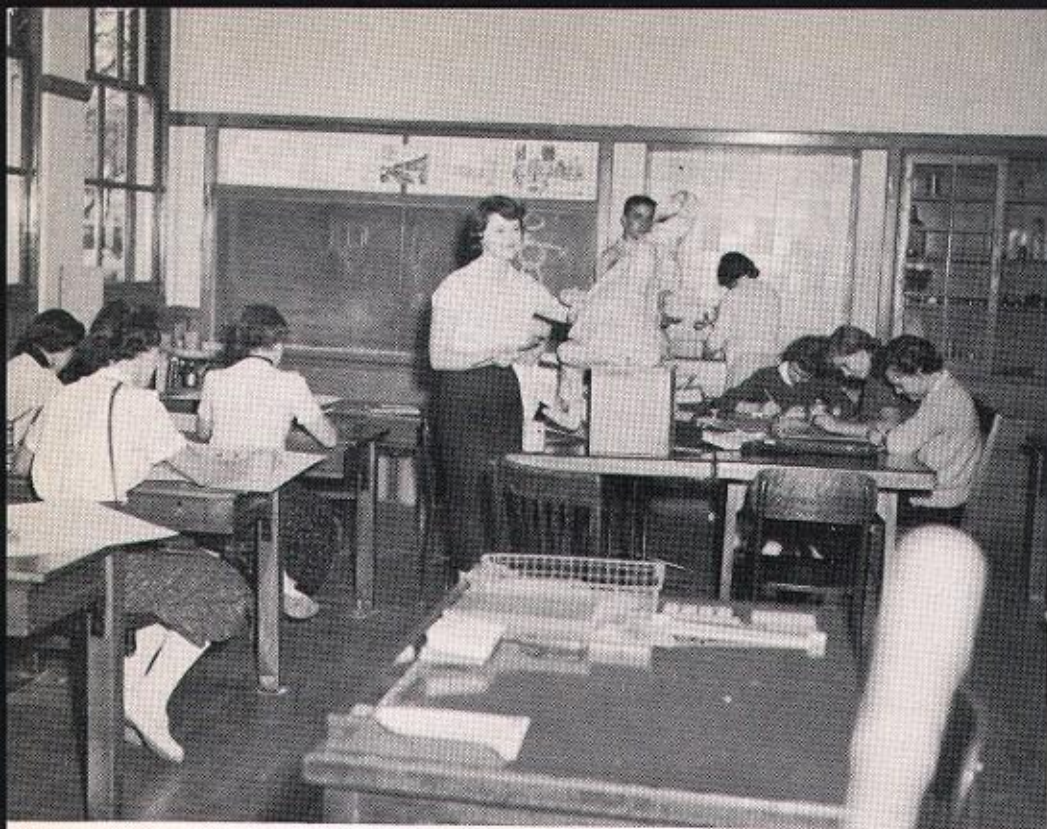

Knowing the Past Helps to Predict the Future

Economics and Government -- Establish Good Citizenship

Economics provides a firm background for the youth of today.

High school government is the foundation of future city, state, and federal governments.

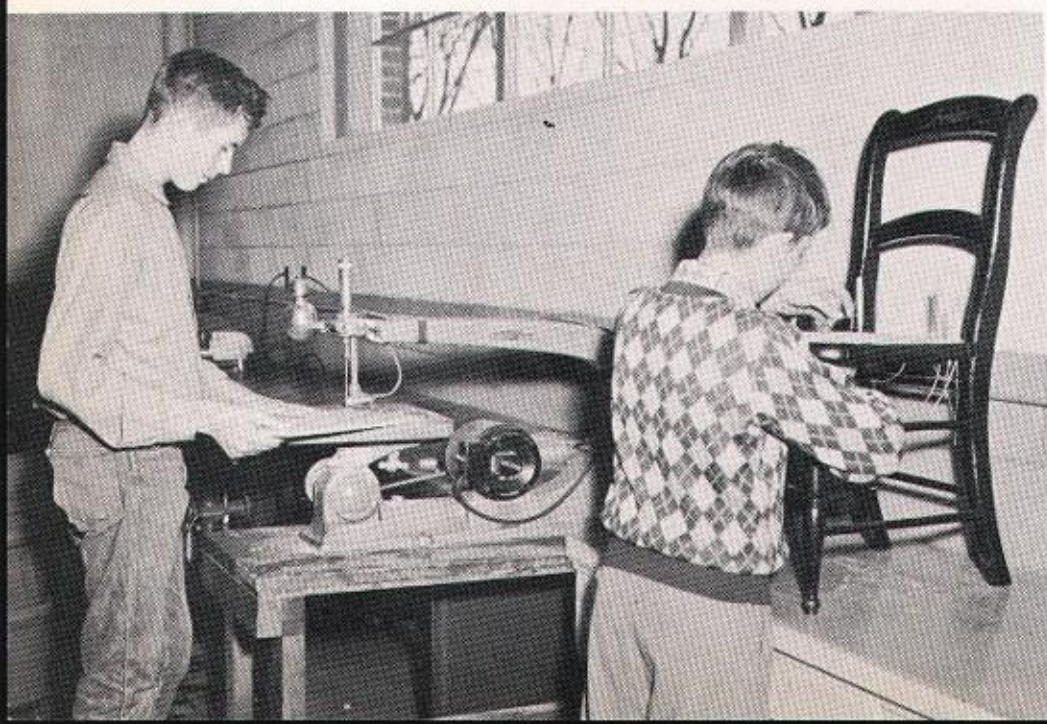

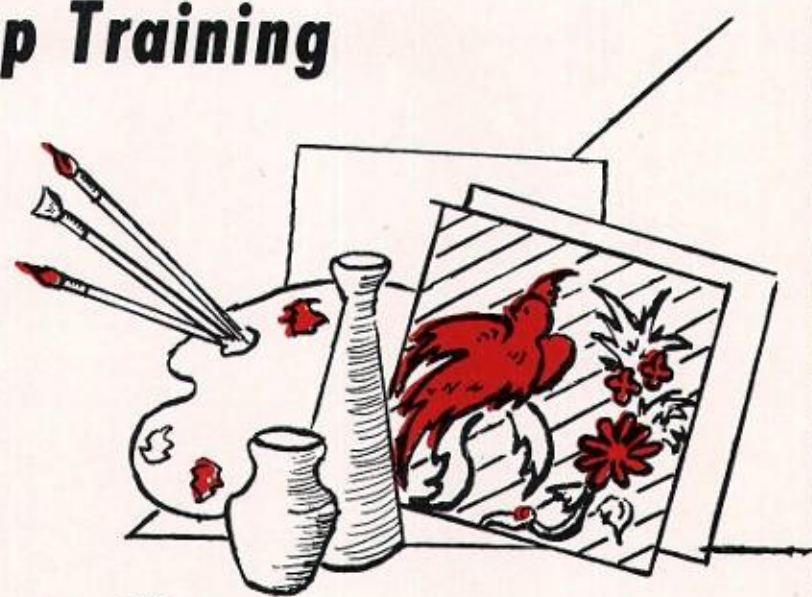

The students working in the field of art are given a well rounded education of the subject. They work in such things as poster paint, clay, textiles and oil paints, etc. This year Mr. Anschuetz has given the students much help toward the understanding of modern art.

Few Rembrandts, Many With Creative Ability

M.H.S. Reaches New Era in Shop Training

Motors, lamps, chairs, and boats are only a few things made by the students in the shop department. They have found that the facilities provided by the construction of the new vocational building has been very useful in the making of these items.

The Business Department of the Marshall High School has been developed with several objectives in mind: to furnish an opportunity for students to discover any special aptitudes they may have in this field; to provide a basic understanding of everyday business activities for all students so that they may conduct their own business affairs more intelligently; and to develop an employable degree of expertness.

From M.H.S. to Office Jobs -- With Good Training

Girls Learn to Care for Future Families

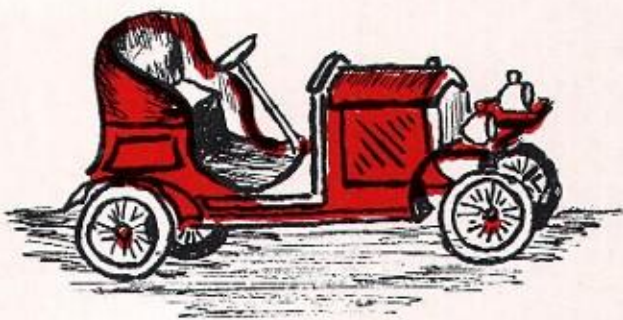

Homeliving prepares the student for running and managing a happy and efficient home. Not only does it teach the student to cook and sew, but teaches other practical things as the care of children, selection and care of home furnishings, maintenance of good health, care of the sick, good grooming, human relationships and sharing in community projects.

Students learning how to drive under the supervision of qualified instructors are taught the importance of safe driving. This is one of the reasons why driver training students usually make better drivers.

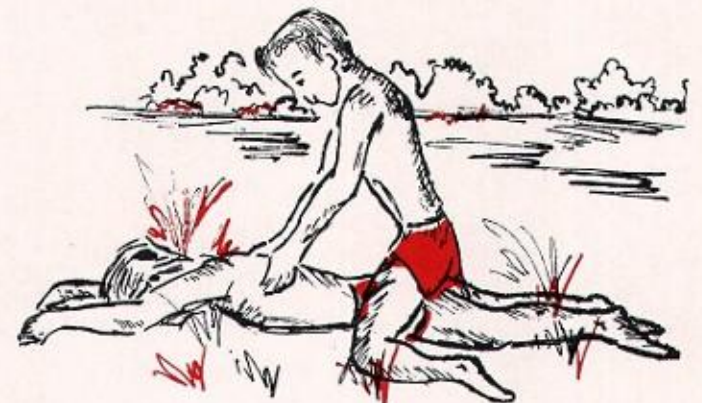

Teenage Driving Improved by Proper Instruction

Healthier, Safer Citizens are Happier Citizens

The teaching of personal health, first aid, and safety in the home, on the highway, and in the community is the aim of the Health and Safety course.

Student Council Works for Bigger and Better Things

The Student Council was especially active this year in Twin Valley Council affairs. On October 15 and 16 we were host to all Twin Valley schools at a conference held at Clear Lake Camp. As a result of this conference, a Twin Valley Student Council was formed.

The Student Council as the governing body of the school performs many worthwhile functions. The Council consists of the officers, the class officers, and seven standing committees consisting of: school service, student-faculty, athletics, assemblies, student union, publications and elections.

Clubs Are Inscribed in the School

Labor Omnia Vincit, the motto of the Latin Club, exemplifies the aim of this club. While this is a social club, its programs are mainly educational. The customs of the early Romans, their dress and food, their language, which has so greatly enriched ours, provide material for interesting programs.

Latin and Spanish Clubs Supplement Classes

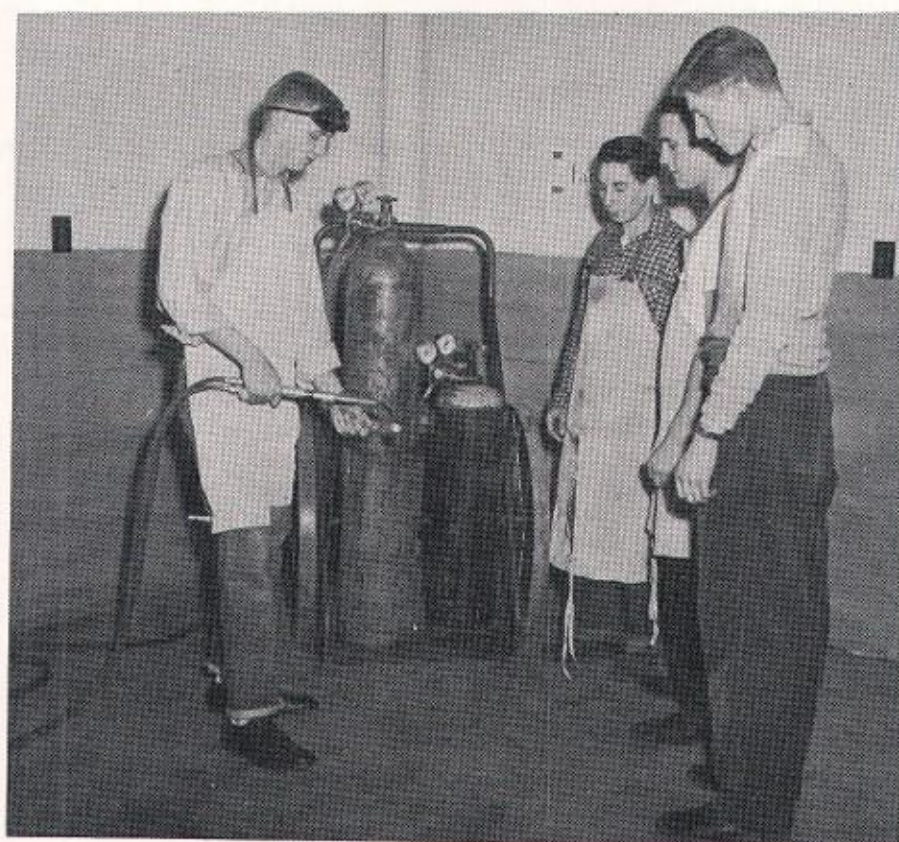

The Spanish Club is one of the most active clubs. One of its most outstanding events is the annual "Fiesta," which is held in December in the Foyer. The customs of the Spanish, including their highly seasoned foods, make the evening one of true Spanish culture.

Other activities include Christmas and Valentine parties and a picnic with the Latin Club on the last day of school. Another large scale activity is the publication of the club paper, "El Ojo." The paper contains news of Spanish-speaking countries. This increases our knowledge of, and gives us a better understanding of our Spanish friends, which is the purpose of the club.

New Facilities Increase Future Farmer Activities

Soil Conservation was the theme of the Marshall Future Farmers of America for 1955-56. Exhibits, demonstrations, speeches, floats and debates were presented by various Chapter members for many farm groups in the Marshall area.

The Marshall Chapter received the honor of being selected as one of the top three Chapters in the State and received a Silver award in the National Best Chapter Contest.

The successful program was under the leadership of presidents James Damon and Richard Wise.

The Varsity Club is made up of "M" winners who are interested in upholding principles of morals and integrity among Marshall athletes. Their biggest contribution to the school was a special-type motion picture projector for football films.

Practical Skills for the Future

The Future Homemakers of America is a National Organization composed of Homemaking students. These girls have many experiences in planning and serving banquets and teas, as well as their regular club activities.

During the many years that Miss Diehl has sponsored the Junior Historical Society, she has given a great many students an insight of the history of Marshall. Many activities are carried on in the club, but the one activity the students enjoy most, is the frequent visits to the landmarks around Marshall.

Library Club Members Assist Mrs. Miller

The Library Club is composed of library assistants, who volunteer their services for a year. The assistants receive one-half credit for their work which consists of processing new books for circulation and working at the desk.

The Secretarial Club is a newly organized club. This has been attempted many times in the past but has never been successful. However, this year because of so many eventful meetings, participation has been excellent.

The club has had many interesting meetings. These meetings include speakers such as alumni, and personnel managers, and the members have also taken fascinating trips through commercial divisions of Marshall.

Ushers Brighten Auditorium Activities

A privilege only a few girls can enjoy is belonging to the Usher Club. The members usher for most school activities as well as for some civic functions. The girls are proud to serve their school and community. This service club holds a fine record.

Sally Pearce's "Serenade in Blue" won her a second place in the vocal.

Phyllis Winsor's clever dance took third in the novelty division.

Judy and Janice Baum played their accordions for second in the instrumental division.

Ron Cook took top honors in the vocal division.

This year's Junior Play, "Time Out For Ginger," was a comedy. It was based on a girl's determination to make the high school football team as a result of her father's lecture to the school on Individual Rights. After many riotous conflicts with mother, father, sisters and boy-friends, the play ended with Ginger and her boyfriend reunited, Ginger and football separated, and Father returning to his almost lost job.

Without a doubt the band's biggest memory this year was its trip to Detroit. The band played for the American Band Directors Association and did an excellent job.

Choir Sings Its Way to Success

This year's choir was probably one of the best Choirs Marshall High has ever had. Miss Hansen's clever arrangements and hard work by the Choir members made them a real success. We can proudly say "Well Done."

We should take great pride in our orchestra this year, for they have worked hard to provide the fine music we enjoyed at the concerts and plays. This can be shown by the many fine honors they have received. Growing steadily year by year, this year's orchestra boasts 56 members.

Orchestra is A Credit to Our School

Cadet Band is the Beginning of A Good Senior Band

Cadet band is one of the three bands which M. H. S. has. This band gives the students the all important experience of learning how to play together as a unit and at the same time improving their own techniques.

Barbara Youngdahl, Andree Graubner, and Arleen Merkle gave a fine performance at the Winter Concert.

Cypress Gardens - Scene of J-Hop

Last years' J-hop rated among the tops. The theme centered around Cypress Gardens. Imported Spanish moss and the fragrance of spring flowers added to the atmosphere of a Florida swamp scene. The music was provided by Bobby Davidson's orchestra. It certainly was a night to remember.

Holiday In Blue

The G.A.A. held its '55 formal dance "Holiday in Blue," on December 10. The library was beautifully adorned with blue draping and sparkling snow flakes. Between the two rooms hung a glittering ball which threw off reflections of light as it revolved. Strains of celestial music were heard coming from one end where Al Fast and his orchestra were playing. At the other end was a sleigh where the couples had their pictures taken. Refreshments were served in the hall.

Enjoyed by Students

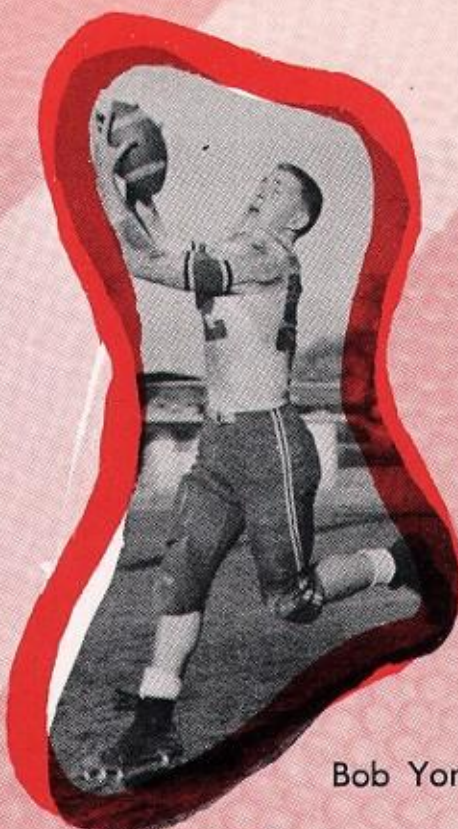

Homecoming at M. H. S. was a gala affair this year, featuring, in addition to the usual activities: a big bonfire at the athletic field, hoedown day, and a parade before the game which was highlighted with several decorative floats. The traditional ceremonies of crowning the queens at the field and the homecoming dance were very nicely carried out. For making this event a success, much credit goes to the G. A. A. girls and the cheerleaders who were under the supervision of Miss Mudge.

The nucleus of only six lettermen returning, the Marshall Redskins had another successful season. The season record showed four wins with four losses. However the losses were to teams with records of seven wins and only one loss, and Niles with seven wins and one tie.

Outstanding performances by seniors were by co-captains, John Tenney and Dave Delaney, Randy Cornwell, Richard Rodriguez, Bob Yonkers, Dick Crusius, Jim Kimmel, and Bill Thornton who transferred from Lakeview.

Varsity cheerleaders—Karen McLain, Nancy Miller, Marlene Herrington, and Chloris Easterday.

The main job of the cheerleaders is to build school spirit. This is done through pep assemblies and cheering at all sport contests. A cheerleader stands for good sportsmanship and promotes good conduct.

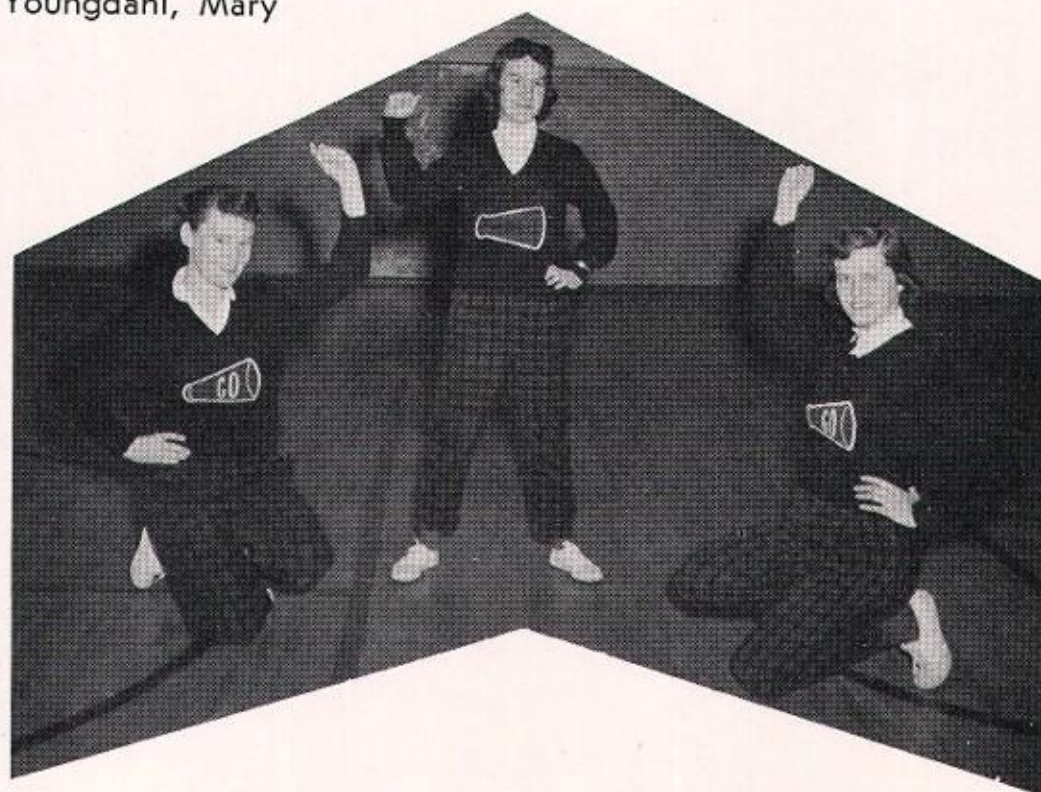

A cheerleader must possess enthusiasm, poise, rhythm, and a smile. Hard work, too, goes hand in hand with cheerleading. Many hours are spent developing skill, ease, and the practicing of and designing of new yells.

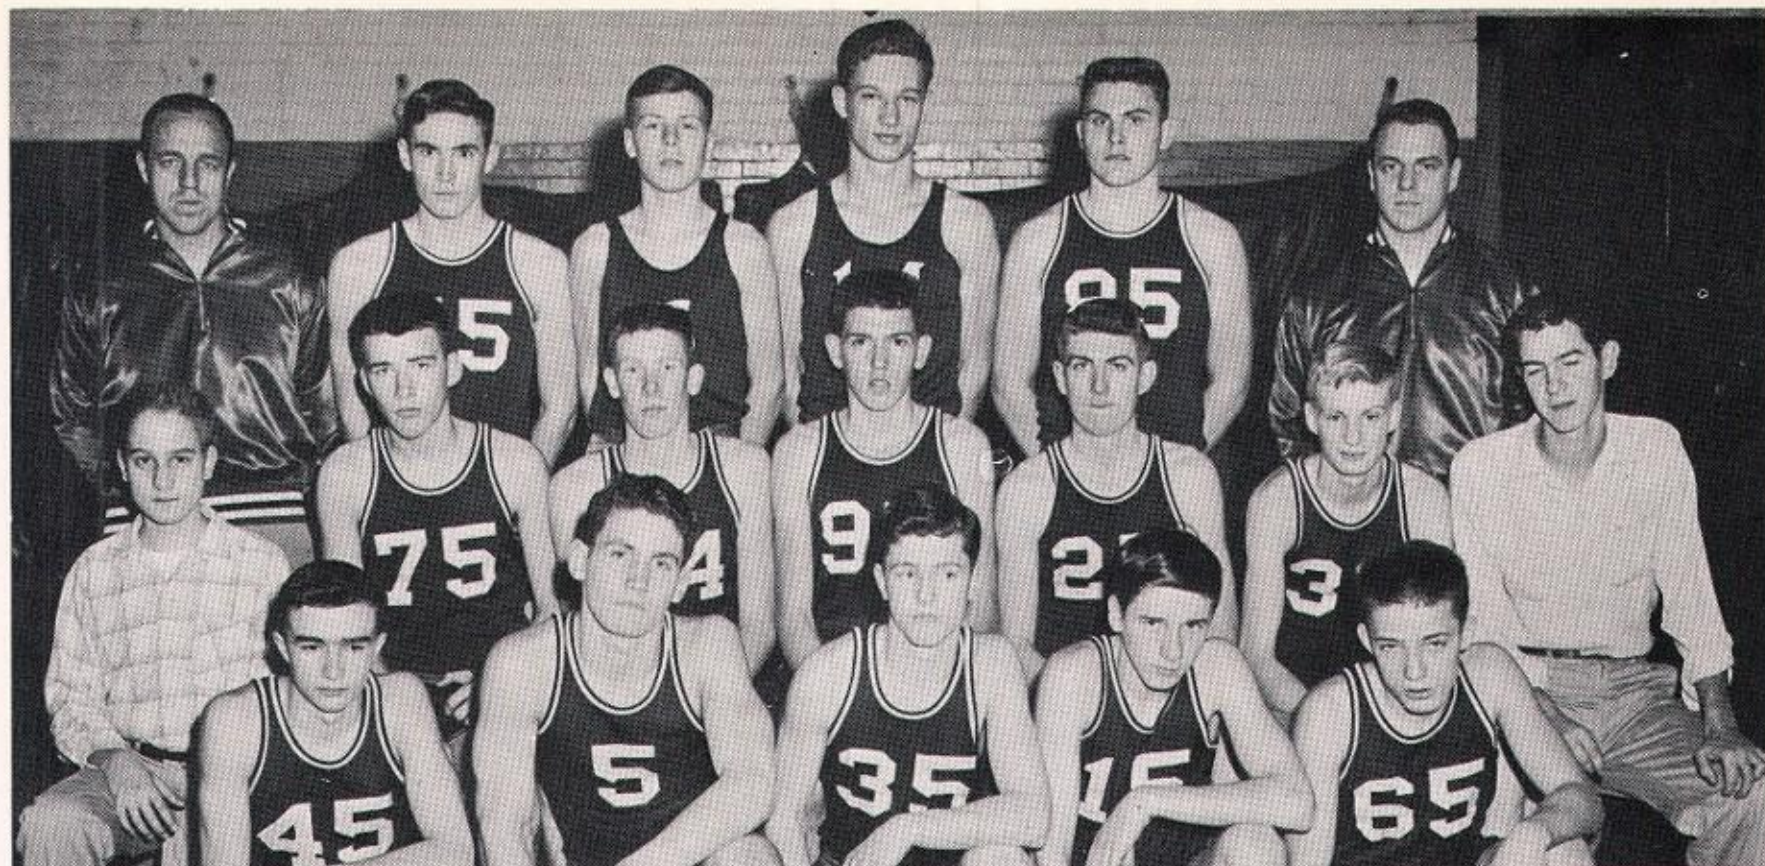

We are proud of our much improved squad this year. They have worked hard and put forth their best efforts.

Although the Redskins didn't turn in a very impressive record this season they were one of the strongest offensive squads in the Twin Valley Conference.

The thorough desire to never give up proves that the Redskins were a hard fighting team.

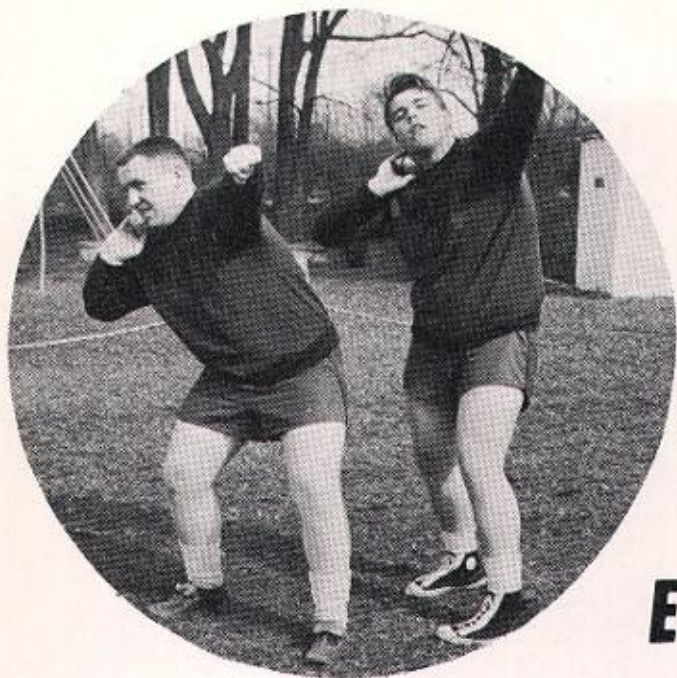

The two games to be remembered were with Coldwater and Hastings. In a "double overtime, sudden death" game the Redskins beat Coldwater 90-88, and set a new Twin Valley Conference record by scoring 90 points in a single game. In the game against Hastings, Center Jim Kimmel set a new high school non-conference record, by scoring 42 points in a single game.

The seniors who lettered last year are George Farley, hurdles, and John McKiver and Lynwood Hunt, pole vault event. Dave Delaney will enter the shot put event while Bob Yonkers will run the 440 yard dash and probably will run a leg in one of the relays.

The two junior lettermen returning are Ken Patton who will enter the broad jump event and the hurdles and Charles Hookway who will run the 880. The one sophomore is Terry Cornwell who will run the dashes.

Last year the golfers won four matches, lost one, and placed fourth in the Twin Valley Meet.

This year's squad looks as if it can go a long way.

Experienced Golfers Tee off on Successful Season

Mr. Sherman, Marshall High's new tennis coach, had 13 boys try out for the tennis team. Among these were 6 returning lettermen, Randy Cornwell, Larry Campbell, Fred Hamilton, Myrl Patton, Jim Staley, and Jim Wilson.

This is Marshall's second year in Twin Valley competition.

Judging from the tryouts tennis will be a permanent sport here at Marshall High.

G.A.A. Provides Members With Competitive Sports

The Girl's Athletic Association endeavors to develop its members physically and socially as well as mentally, primarily through participation in intra-mural sports. During the past year this active club sponsored the annual winter formal, participated in inter-mural play days, and was the instigator of a successful Homecoming parade.
